Letter No. 1202/SKE/2023

Date 29/12/23

Performance of the Institution in one area distinctive to its priority and thrust

The performance of the Institution on the area of academic and its monitoring system of online classes, online supervision by the management, attendance through proctors of Institution is distinctive to its priority. The Institution has adopted very strong academic vision for completion of syllabus and qualitative conduct of classes in all semesters. Faculty members of the institution take online classes on holidays, Sundays to manage their classes as per lesson plan for any urgent leave taken by them as a motto of "Zero loss of class hours".

As regard to monitoring of attendance the proctors of the Institution are allotted group of students in their class. The proctor follows up the attendance of his/her students through personal contact and with the parents in case of absentee students on each Saturday of the week. The Principal verifies all the proctor activities by calling weekly meetings of the proctors in his office and accordingly remedial actions are planned.

Similarly as regard to student feedback, the Institution adopted three tier system of feedback: Centrally through feedback in charge in the online/offline mode, by the principal by physically calling students and verified the class notes to the student and lesson plan submitted by individual faculty members and finally by the academic in charge of the management.

As regard to effective academic management the Institution adopted policies since long to provide class notes, Probable question and answers to the student through Institution website. Faculty members upload their class note by themselves after completion of every module. One senior faculty member is assigned to monitor whether all the notes and probable question & answers are uploaded in time or not & submit a report to the principal every month. We maintain it regularly on priority basis since its inception to till date.
